FROM: Councilmember Scott Peters  
SUBJECT: Proposed Police Substation in Carmel Valley

---

I wanted to bring your attention to an issue of concern brought to my attention by community leaders in Carmel Valley regarding the proposed northwest area Police Substation. The community planning board is hesitant to commit over \$19 million dollars for the project if there is no assurance from the Police Department that this station will provide increased law enforcement presence in their community. According to the board members, there has been an indication from your department that police officers assigned to this new substation will not be able to spend the predominance of their time in Carmel Valley.

I respectfully request a letter from your office detailing the effects that this new substation will have on police services in Carmel Valley and its neighboring communities, including response times, which we can share with the members of the Carmel Valley Community Planning Board.

Thank you for your assistance with this matter.
